## URGENT DEMANDS FOR GRANULATED STIMULATES RAW

Sugar Prices Increase; Reports  
Show Beet Crop to Be  
Late and Small

(Special Correspondence News &  
Callaghan, 99 Wall Street.)

NEW YORK, N. Y., Sept. 22.—Following the business at 5.25c basis 96 degrees, duty paid, reported at the close of last week, no further offerings appeared thereat, and at the opening of this week a decidedly firmer tone developed, which quickly resulted in an active and sharply advancing market with closing sales of Cuban sugar at 5c basis 96 degrees c. & f. (6.02c), showing an advance of 75c as compared with closing quotations a week ago.

Holders of Cubas at the beginning of this week were offering moderately at 4 1/2c basis 96 degrees c. & f. for shipment and at 5.50c basis 96 degrees duty paid for Cubas from store, which prices both refiners and operators agreed to pay, but were not able to secure more than 50,000 to 60,000 bags from store and for prompt shipment before the market was cleaned of Cubas at this basis. Holders then began withholding offerings, with the result that when refiners advanced their ideas to 4 1/2c basis 96 degrees c. & f. for shipment Cubas and the equivalent price of 5.50c basis 96 degrees duty paid, for store Cubas, a very limited quantity was obtainable at this level.

Up to this period the buying had not been very scattered, but the advance in raws stimulated renewed buying in refined on the part of the domestic trade at 6.40c less 2 per cent for granulated, which, although moderate, was sufficient in volume to cause refiners, who were not prepared to meet it, to more generally become interested in nearby supplies and necessitated their paying 4 1/2c basis 96 degrees c. & f. and its equivalent of 5.75c basis 96 degrees duty paid for additional molting supplies. The business at this level was again moderately large, as sellers realized that the strength of the raw market was inspiring the domestic trade with more confidence and causing increased buying of granulated, which would eventually necessitate refiners becoming eager buyers, and therefore holders of Cubas in warehouse here and of the unsold balance remaining in Cuba, which is now in low and strong hands, were not disposed to sell freely, as long as conditions favored their side of the market. Therefore, when refiners discovered that the market had been cleaned of Cubas at 4 1/2c basis 96 degrees c. & f., and advanced their buying views to 4 1/2c basis 96 degrees c. & f., they were only able to buy about 20,000 bags of Cubas for prompt shipment at this level, as holders generally raised their ideas to 5c basis 96 degrees c. & f. (6.02c) for further moderate quantities.

Within the past few days the American S. R. Company has contracted for 50,000 tons of the new Louisiana crop for delivery at New Orleans during November, December and January at a price to be fixed on day of arrival and to be 30c under the prevailing New York market quotations.

Reports from Ohio and Michigan state that the beet crop will be several weeks late and considerably short of the first estimates. Messrs. Willet & Gray estimate that out of a total United States beet crop this year of 150,000 tons, Ohio and Michigan should produce approximately 30,000 tons and 115,000 tons respectively. Because of the drought recently experienced in Michigan some reports place the expected reduction in the estimate for this state at from 30 to 50 per cent. It therefore seems assured that little or no domestic beet granulated will be shipped into our Eastern markets from Ohio and Michigan until after November 1. The present quotation named by beet manufacturers is 6.40c less 2 per cent. It is considered quite probable that the prevailing shortage in refined cane will restrict shipments of raw Western beets into Eastern markets, and therefore the prospects of our local refiners finding a better demand for their refined during the month of October appear much brighter than was the case a month ago. The development of this situation is largely responsible for the present good demand now being experienced, because the trade which has been carrying minimum stocks in the expectation of finding beet granulated plentifully available after the middle of October, have found it necessary to replenish their depleted stocks by buying freely from Eastern refiners.

The weekly cable on Tuesday from Cuba reported receipts 1907 tons and one central grinding, as compared to 1527 tons receipts and one central at work at the corresponding date last year. Today one central is still in operation and the weather is favorable for the growing crop.

At the opening of the week granulated was quoted at 6.40c less 2 per cent by all refiners, excepting the Federal S. R. Company, which was quoting at 6.60 less 2 per cent. A continuation of the brisk demand and heavy withdrawals against outstanding contracts made it necessary for refiners to repeatedly advance their quotation in accordance with the higher prices demanded for raws. After advancing to 6.50c less 2 per cent, Aronick Brothers and the Warner S. R. Company withdrew from the market entirely, and the Pennsylvania S. Company also withdrew after 6.60c less 2 per cent had been reached. Subse-

## HOTELS PREPARE FOR WINTER OF BIG BUSINESS

Reservations Already Made  
Show Tourists Are Coming  
in Large Numbers

More tourists and visitors are coming to Hawaii during the fall, winter and spring than ever before. If the advanced reservations at hotels and preparations being made by local hostesses can be taken as a reliable indication.

Philias Poirier, chief clerk at the Moana Hotel, reports that the record has been already broken at his hotel for long-time reservations, one being made last December for rooms for two months, next January and February.

"The reservations have been coming in right along, and earlier than in former years," he says, "and therefore I expect a larger number of visitors."

Most of the reservations made so far have been not for short stays here, according to Poirier, but usually for several weeks.

A prominent New York family recently wrote they would arrive in the Matsonia January 30, and others have already made reservations who are coming at that time.

At the Young Hotel an addition has been made in the hostelry management by Walter Mayo, for some time in charge of the Stewart Hotel dining room in San Francisco, who will immediately start in the Young cafe, eventually relieving James McBride, who will devote all his time to the candy shop and bakery.

## CITY DADS SEEK DISSOLUTION OF INJUNCTION BILL

Defendants in Pearl City School  
House Row Now Hold No  
One Harmed

Taking their first action against the movement of City Attorney Arthur M. Brown to enjoin them from constructing a schoolhouse at Pearl City, the supervisors, City Treasurer D. L. Conkling and Building Inspector Henry Freitas have filed in the circuit court a motion to dissolve the bill and dissolve the temporary injunction already granted by Circuit Judge Ashford.

Two of the respondents included in the original bill are not mentioned in this motion. They are City Auditor James Mitchell and Deputy City Auditor J. W. Lloyd. City Attorney Brown, who brought the suit, is mentioned as "a citizen and taxpayer on his own behalf and on the behalf of all citizens of the city and county of Honolulu."

The motion of the respondents is based on the ground that "the bill for injunction as to them, the movants, does not state facts sufficient to constitute any injury, damage, harm or molestation, threat or otherwise to or against the petitioner, A. M. Brown, his property or estate; nor to or against any other citizen or citizens, their property or estate; nor to or against any other taxpayer or taxpayers, their property or estates, in the city and county of Honolulu."

The supervisors and other respondents are represented by Attorney John T. De Bolt.

## DISTRICTS OF KONA AND KAU, HAWAII, HAVE MANY IN GOVERNMENT SCHOOLS

Showing a total enrollment of 1698 in the schools in the Kona and Kau districts, the last of the reports from Hawaii on school attendance were received Wednesday by the department of public instruction.

With the Hilo high school having an enrollment of 169 and the Hilo Union group an enrollment of 1143, the Kona and Kau reports bring the total Hawaii enrollments to more than 8000. The following schools in the two districts on the Big Island reported today:

Papaia, 24; Alae, 66; Hookena, 122; Honaunau, 79; Napoopoo, 144; Kona, 229; Keahou, 61; Kailua, 55; Hualaloa, 229; Honokahua, 52; Kailua, 28; Kapapala, 39; Pahala, 180; Hilea, 83; Honuapo, 42; Naeahou, 132.

Recently the other refiners found it necessary to further advance prices and at the close the Federal S. R. Company had advanced to 7c less 2 per cent, while the American S. R. Company and the National S. R. Company are quoting 6.75c less 2 per cent. It is quite evident that the demand had been far better than was generally expected and has caught refiners unprepared.

The trading in options during the week reached an aggregate of \$2,800,000. Closing quotations today are: October 4.80c, September 4.85c@4.90c; October 4.80c@4.87c, December 4.55c@4.60c, January 4.20c@4.21c, March 3.98c@4.

Russia maintains at Moscow an experiment station for the study of flax cultivation and manufacture.

## COUNT TERAUCHI, CALLED TO BE PREMIER, ACHIEVES NOTABLE RECORD

Cable advices received yesterday told of the summoning of Count Selki Terauchi to the premiership of Japan. His acceptance has been taken as a foregone conclusion.

Since the first Japanese cabinet was organized in 1886, there had been 17 premiers to receive imperial orders to form a cabinet, but none of them have held their cabinet together more than five years.

Here is a list showing their administrations:

Premier:

Name	Appointed	1886 held cabinet	2 years 5 months
Hirobumi Ito	1888	1 year 9 months	
T. Kuroda	1888	1 year 6 months	
A. Yamagata	1891	1 year 6 months	
M. Matsukata	1891	1 year 6 months	
H. Ito (2d term)	1892	4 years 2 months	
M. Matsukata (2d term)	1896	1 year 5 months	
H. Ito (3d term)	1898	6 months	
S. Okuma	1898	6 months	
A. Yamagata (2d term)	1899	2 years	
H. Ito (4th term)	1900	9 months	
T. Katsura	1901	4 years 8 months	
K. Saionji	1906	1 year 5 months	
T. Katsura (2d term)	1908	3 years 2 months	
K. Saionji (2d term)	1912	1 year 5 months	
T. Katsura (3d term)	1913	2 months	
G. Yamamoto	1914	1 year 1 month	
S. Okuma (2d term)	1915	2 years 6 months	

Terauchi Advances Steadily

Count Selki Terauchi, the governor-general of Korea, supreme military councillor and now called to the premiership, was born February 5, 1852, in the prefecture of Yamaguchi. He is the second son of Shotai Ueda, a well-known knight of that prefecture, and was adopted by Kanemon Terauchi. He was educated in France, appointed sub-lieutenant in the imperial army in 1871, lieutenant in the same year; captain in 1872; major in 1879; lieutenant-colonel in 1887, and colonel in the same year; major-general in 1894; lieutenant-general in 1898, and general in 1906. From 1882 to 1885 he was military attaché to the Japanese legation at Paris; adjutant and private secretary to the war minister in 1886; Director of the military academy in 1887; chief of staff of the first army division in 1891; director of the first bureau of the general staff office in 1892, and was sent abroad in 1896. He was made commander in chief of the 3rd army brigade in the same year; became superintendent of military education in 1898; vice-chief of the general staff office in 1900; minister of war in 1902; and resident general of Korea in 1910.

In the Russo-Japanese war he achieved distinction as minister of war, which office he held till August, 1911. He was ennobled as count by the late Emperor Mutsuhito in recognition of his services in connection with the annexation of Korea.

## REDEEMS LARGE ISSUE OF BONDS FOR TERRITORY

Treasurer McCarthy Authorizes  
Calling in of \$150,000  
Worth of Them

Territorial Treasurer Charles J. McCarthy has authorized the redemption of \$150,000 worth of 4 per cent bonds issued on October 4, 1905. The bonds were held by the Bank of Honolulu.

Money for redeeming the bonds was taken from the sinking fund, the treasurer deciding to apply it to redemption instead of looking around for investments which would bring similar interest. The interest on the bonds amounted to \$6000 a year.

They could be called in any time after October 4, 1910, and would have matured on October 4, 1920. The total issue of these bonds was for \$600,000, of which the remainder is still held by the Bank of Honolulu. They are known as "refunding" bonds.

## SEATTLE STRIKE OF STEVEDORES TOTAL FAILURE

Union Gives Up Fight and Sues  
For Peace at Shippers' Terms

SEATTLE, Wash., Oct. 5.—The longshoremen's strike, which was called here simultaneously with the strike of the longshoremen in San Francisco, on June 1, has completely collapsed, and yesterday the union members formally called the strike off and agreed to accept defeat.

The men are now soliciting reemployment on the old terms of hours and wages.

## FORMER MISSOURI SENATOR PASSES ON

KANSAS CITY, Mo., Oct. 5.—Major William Warner, former United States senator from Missouri, died at his home here last night.

Major Warner was prominent politically in Missouri for many years. He became United States senator in 1905, and in 1908 was chairman of the committee named to notify Mr. Taft of his election to the presidency.

The former statesman was almost equally prominent in Grand Army circles.

## HONOLULU ASTONISHED BY SIMPLE MIXTURE

Honolulu people are astonished by the INSTANT action of simple buckthorn bark, glycerine, etc., as mixed in Adler's. ONE SPOONFUL relieves almost ANY CASE constipation, sour stomach or gas. Because Adler's acts on BOTH lower and upper bowel, a few doses often relieve or prevent appendicitis. A short treatment helps chronic stomach trouble. The Hollister Drug Company—Adv.

## TAFT DECLARES COMING ELECTION MOST IMPORTANT

Wilson Gets an Enthusiastic  
Greeting in Middle West;  
Fairbanks Asks Unity

(Associated Press by Federal Wireless)

CHICAGO, Ill., Oct. 5.—President Wilson, who is making his first campaign tour, was given a hearty welcome into the Middle West yesterday, being received by cheering crowds at all the stops made by his special train in Ohio, Indiana and Illinois. The president greeted the various crowds with short speeches of thanks, but took up none of the political issues at stake.

Tomorrow the president will reach Omaha, where he will speak twice, addressing non-political organizations.

At Trenton, New Jersey, yesterday, former President Taft made a vigorous campaign speech, asserting that the election of 1916 was as important in its possible effects upon the country as that of 1896, when the gold standard was threatened by the advent of Bryanism. This address by Mr. Taft opened the state campaign.

The speaker attacked the Democratic administration, centering his criticism on the fiscal policy of the government, the handling of the Mexican situation and the forcing of the Adamson bill upon Congress.

Charles W. Fairbanks, the Republican candidate for the vice-presidency, who addressed the voters of San Francisco last night, made an earnest plea for harmony between the Republicans and the Progressives of the state.

## CHINESE FAIR OPENS FRIDAY

With the Chinese Fair only one day off the interior of the Chinese Fort street church resembles a veritable fairy land. It has been constructed in imitation of a street in Canton with its booths of rare and expensive silks, embroidery and other Oriental novelties. Nothing has been omitted in following out the scheme and great praise is due the committee which has had the work in charge.

The fair is given to obtain money for repairing the church and other buildings connected with the association. The doors will be open to the public Friday, October 6, from 6 p. m. to 11 p. m., and Saturday from 11 a. m. to 11 p. m.

The committee in charge are E. S. Kong, Yap Kwai Fong, C. K. Ai and Char Tong. Tickets are on sale at the drug stores.

The advertising columns of the Star-Bulletin offer a line of least resistance to every ambitious merchant that he would do well to follow.

—THE AD MAN.

## ENGLAND CLOSE TO MAXIMUM OF EFFORT IN WAR

Returning Australian and New  
Zealand Statesmen Confi-  
dent Allies Will Win

Englishmen believe the war will end within the next 10 or 12 months, in favor of the Entente Allies. Great Britain is one vast arsenal, turning out big guns and big shells at a rate which is proving the decisive factor and starting the Germans "on the down-grade." The Entente Allies have "turned the corner" and are approaching the maximum of effort both in manufacturing munitions and supplying troops. England is on the whole friendly to the United States.

These are the opinions held by 19 delegates from the Australian senate and house of representatives and six from New Zealand, who attended the Imperial Conference of self-governing countries of the British Empire, held in London the latter part of July. They are on the Canadian-Australasian steamer Makura stopping here Wednesday on their way home.

Those from the two big countries to the southwest include the Hon. D. Watkins, representative, chairman; R. J. Burchell, representative; Senator S. Barker, Hon. P. McIn. Glynn, representative; A. J. Hamilton, M. P., representative; Senator Hon. J. P. Keating, who remained in London; Senator Hon. H. de Largie, Representative R. B. Orchard, A. C. Palmer, M. P.; C. J. Parr, C. M. G. M. P., chairman of the New Zealand delegation; Hon. J. Thomas, M. P., and Representative Hon. D. Watkins.

All Visit War Fronts

All the delegates visited the French and British fronts, the British Grand Fleet in the North Sea, the munition works of Great Britain, the military training camps, and everything else of interest. They returned satisfied that the Entente Allies will win, and that Great Britain has not reached her maximum of effort.

"All the Allied countries' views are that we have turned the corner and England is fast approaching the maximum of effort, both as concerns munitions and men," said Parr. "They believe that Germany is now on the down grade, as Great Britain's tremendous output of heavy guns and shells from her new munition works, all over England, have turned the scale. Where we had 358 machine-guns at the beginning of the war we now have more than 5000, and of heavy guns there are now being turned out more every month than were in use by the entire British army when the war started."

New Zealanders Fight Bravely

Parr added that the New Zealand troops are fighting with the greatest spirit and are getting "plenty of work to do on the Somme." They are now 50,000 strong, he said. Parr added that on the whole England feels friendly to the United States, and realizes the tremendous difficulties President Wilson has had to contend with in his administration.

End in Ten Months

Representative Glynn said he thought the war would last at least 10 months and possibly longer, but that the Entente Allies' wearing power is tremendous. Chairman Watkins said everyone is optimistic over the situation, and that England's output of munitions and men is constantly increasing. Thomas said that the war is "a slow process, but can have only one ending."

The party went primarily to see what is being done by the Entente Allies. The members said Australia is discussing now plans for her troops when the war ends. These include placing them in business positions, giving those suitable for agriculture tracts of land, and starting cripples in small businesses for themselves.

## REMAINS OF JUDGE A. S. MAHAULU INTERRED IN WAILUA CEMETERY

Funeral services for the late Judge Archibald Scott Mahaulu, boys' probation officer and former district magistrate at Wailua, were held at 4 o'clock Tuesday afternoon at the Wailua church, of which he was acting pastor for several years. Interment was in the church cemetery. The funeral was largely attended. Those present including many Honoluluans. Many beautiful floral tributes, the final offerings of friends and relatives, were in evidence. Judge Mahaulu died at 12:30 o'clock Tuesday morning at the Beretania sanitarium. He had been ill since July.

## Y. W. C. A. TO HOLD FIRST OUTING ON SATURDAY AFTERNOON

Featuring their first Saturday afternoon outing of the autumn season, members of the Y. W. C. A. will go to Kaliuwa Sacred Falls on October 7. Mrs. E. Nakuna will address the members on Hawaiian legends.

Mrs. Nakuna is instructor in Hawaiian history at the Normal school and is familiar with the history of the sacred falls. Those who wish to make the trip are requested to meet at the association building at 12:30. The charge for the trip is \$2.

Douglasville, N. J., has a dwelling occupied continuously for 200 years.

## FEDERAL SUGAR CO. MAKES RECORD SALE OF 30,000 TONS

(Associated Press by Federal Wireless)

NEW YORK, N. Y., Oct. 5.—The Federal Sugar Company announced yesterday the sale of 30,000 tons of sugar to a foreign buyer whose name is not given. The price was said to have been \$5,500,000.

This is declared to be the world record for a single sale of sugar.

## MEXICO MUST MAKE THOROUGH JOB OF SETTLING TROUBLES

(Associated Press by Federal Wireless)

ATLANTIC CITY, N. J., Oct. 5.—No half measures for the rehabilitation of Mexico will be satisfactory to the United States, as this country expects the re-establishment of such order in Mexico as will make impossible another such condition on the border as has been maintained during the past two years. Such was made plain to the Mexican commissioners in conference here with the American commissioners by the latter yesterday, when the discussion of the border troubles was resumed.

The United States expects, the Mexican commissioners were told, that a satisfactory solution of all the internal conditions of Mexico having international bearings must be made an integral part of the program for the rehabilitation of Mexico, inasmuch as the possibility of foreign intervention is of pressing importance to the United States.

## PROHIBITION CANDIDATE BELIEVES INTERVENTION IN MEXICO ONLY SOLUTION

(Associated Press by Federal Wireless)

SIOUX FALLS, South Dakota, Oct. 5.—J. Frank Hanly of Indiana, candidate of the Prohibitionists for the presidency, in a political address here last night, reviewed the Mexican question and declared that the situation south of the Rio Grande is a hopeless one unless the United States takes an active part in the quelling of the country.

He announced his conviction that nothing short of armed intervention on the part of this country will ever be able to restore order in Mexico and give the Mexicans the chance they say they desire for the rebirth of their republic.

Intervention is certain to come sooner or later, said the speaker, and the sooner the better for Mexico.

## STEEL CONTRACTS FOR WARSHIP CONSTRUCTION SHOW BIG INCREASE

(Associated Press by Federal Wireless)

WASHINGTON, D. C., Oct. 5.—Contracts for the structural steel to be used in the construction of the warships to be laid down in this year's building program of the navy department were awarded yesterday. The prices submitted by the steel mills tendering average 35 per cent higher than the prices of last December for the same classes of material.

## PARALYSIS EPIDEMIC NOT YET WIPED OUT

(Associated Press by Federal Wireless)

NEW YORK, N. Y., Oct. 5.—Following the initiative of the state health authorities in removing the embargo on the children of New York City, which had prevented them from leaving the city, the city health authorities yesterday declared the quarantine because of infantile paralysis at an end. This does not mean that the epidemic has been stamped out or has run out of itself, as the records of the twenty-four hours were yesterday twenty-three new cases reported, with the day's death toll amounting to seven.

## JUDGE AND MRS. W. L. WHITNEY TO RETURN HERE NEXT MATSONIA

Circuit Judge W. L. Whitney and Mrs. Whitney, who have been traveling on the mainland for the last two months, will return to Honolulu in the steamer Matsushima next Tuesday, according to a cablegram received yesterday by Attorney E. White Sutton. While in the East Judge and Mrs. Whitney visited in New York City, Washington, D. C., Philadelphia and Chicago. Prior to leaving Honolulu Judge Whitney said he intended to confer with Attorney General Gregory while in the national capital. The Whitneys are now in San Francisco.

Dr. J. M. Whitney was guest of honor at a special gathering of men and women in Central Union church on Tuesday, the occasion being his 51st birthday. He was presented with a basket of beautiful orchids and showered with congratulations by his many friends present.

## IN PYORRHOEA

the dentist treats the effects only; the Chiropactor removes the cause of this "incurable" disease, and the patient gets well. "Can't be done!" Oh, yes, it can!

## BEST LEGUMES FOR LOCAL USE ARE DETERMINED

Valuable Treatise on Vegetable  
Growth for Renewing Fer-  
tility of Soil Prepared

By J. M. WESTGATE  
Director U. S. Experiment Station

To increase the fertility in the soil the U. S. experiment station urges the growth of legumes, and from long experience practically all of the agricultural agencies in Hawaii have, during recent years, realized the importance of legumes as soil improvers.

The station has just sent to Washington for approval and publication the manuscript for a popular bulletin giving the results of field and laboratory study recently carried out to determine the relative efficiency of a large number of legumes as green fertilizer.

The list includes the more common cultivated legumes as well as a considerable number of wild ones which have proven ability to make successful growths under local conditions.

Johnson Prepares Manuscript

M. O. Johnson, chemist, has prepared the manuscript for the bulletin appearing as its senior author, and he expects it to answer the many inquiries which have been received regarding the most practical means of maintaining humus content, especially in the pineapple soils. Alice R. Thompson, assistant chemist, is responsible for the analysis, while C. A. Sahr, assistant agronomist, has done valuable work in connection with the field tests.

Among the wild legumes the rattle pod seems to offer the most promising results. The seed of this can easily be obtained by children and it takes only about five pounds to the acre.

The bulletin also carries illustrations of wild native legumes which are recommended for pineapple and other lands where it is desirable to increase the humus content and consequent fertility.

## IN WAR ARENA

SWEDISH PREMIER DENIES  
RUMOR OF NEAR BREAK

STOCKHOLM, Sweden, Oct. 5.—Premier and Minister of War Hammarskjöld, in a formal statement issued yesterday, denied that there is any foundation for the reports in circulation that Sweden has reached a point where a break with the Entente Powers is possible or even probable.

"The 'blacklist' as issued by Great Britain and France is certainly objectionable to Sweden," he said, "but that it constitutes an unjust attempt to deprive certain of our citizens of their just rights, but he adds that 'any rumors that Sweden is upon the point of entering the war are due only to neurosthenia.'"

## VENEZUELA SYMPATHIZERS IN NEW GREEN CABINET

LONDON, Eng., Oct. 5.—A Reuter despatch from Athens announces the probable formation of a new Greek cabinet which will include at least three of the members of the former Venizelos cabinet which had been dismissed by King Constantine early in the war.

The king, states the despatch, has accepted the resignations of the entire Kallogeropoulos cabinet, including that of the premier, and has called upon Nicolas Dimitrakopoulos, a former minister of justice, to form a new cabinet.

## U. S. INTERVENTION SAVES CONDEMNED BELGIANS

AMSTERDAM, Netherlands, Oct. 5.—Advices from Brussels declare that, as the result of the protests from America, presented through the Spanish ministers, Gen. von Blasing, the military governor of Belgium, has pardoned 22 Belgians condemned to death at military court-martial for spying. Those pardoned as the result of American intervention include three women and two girls and the acting burgomaster of Namur.

## KAUAI REGISTER SHOWS VOTERS ARE INCREASING

Registrations on Kauai numbered 168 more names this year than last, according to the figures of County Clerk J. M. Kanehaka, whose books showed a total of 1348 when they closed at midnight September 25. The Garden Island of Lahu says that last year 1190 voted and this year it is expected the number will not be increased due to the large number of absent residents.
